

CBSV REFERRAL SLIP

Name of woman: _____

Age of baby: _____

Community: _____

Date referred: _____

Reason referred (tick) Very small baby
 Sick baby

Name of CBSV: _____

Seen at facility by: _____

Date: _____

On the way to the hospital

- If the baby is able to feed, put the baby to the breast at least every two hours and give only breast milk.
- Keep the baby warm. Keeping them skin to skin is best

- In skin to skin care the baby is:
 - Naked except for a napkin, hat & socks
 - Placed between the mother's breasts with the legs along the ribs and the head turned
 - Secured with a cloth
- If skin to skin is not possible wrap the baby well and keep them close to the mother
